# Who We Are

AL NAHDHA GROUP (**ANG**) is an Oman-based internationally-operating group with affiliates spread across the Middle East, India and Italy offering a broad spectrum of services.

Led by a visionary and professional management, **ANG** has risen from a modest beginning in 2003 and has evolved, in a remarkably short span of time, into a trusted business leader providing excellent services to its valued clients.

With a dedicated team of over 2,000 personnel including engineers, technicians, skilled & semi-skilled workers as well as administrative staff, **ANG** today serves projects of national importance in Oil & Gas, Petrochemicals, Power, Telecommunications and IT Sectors.

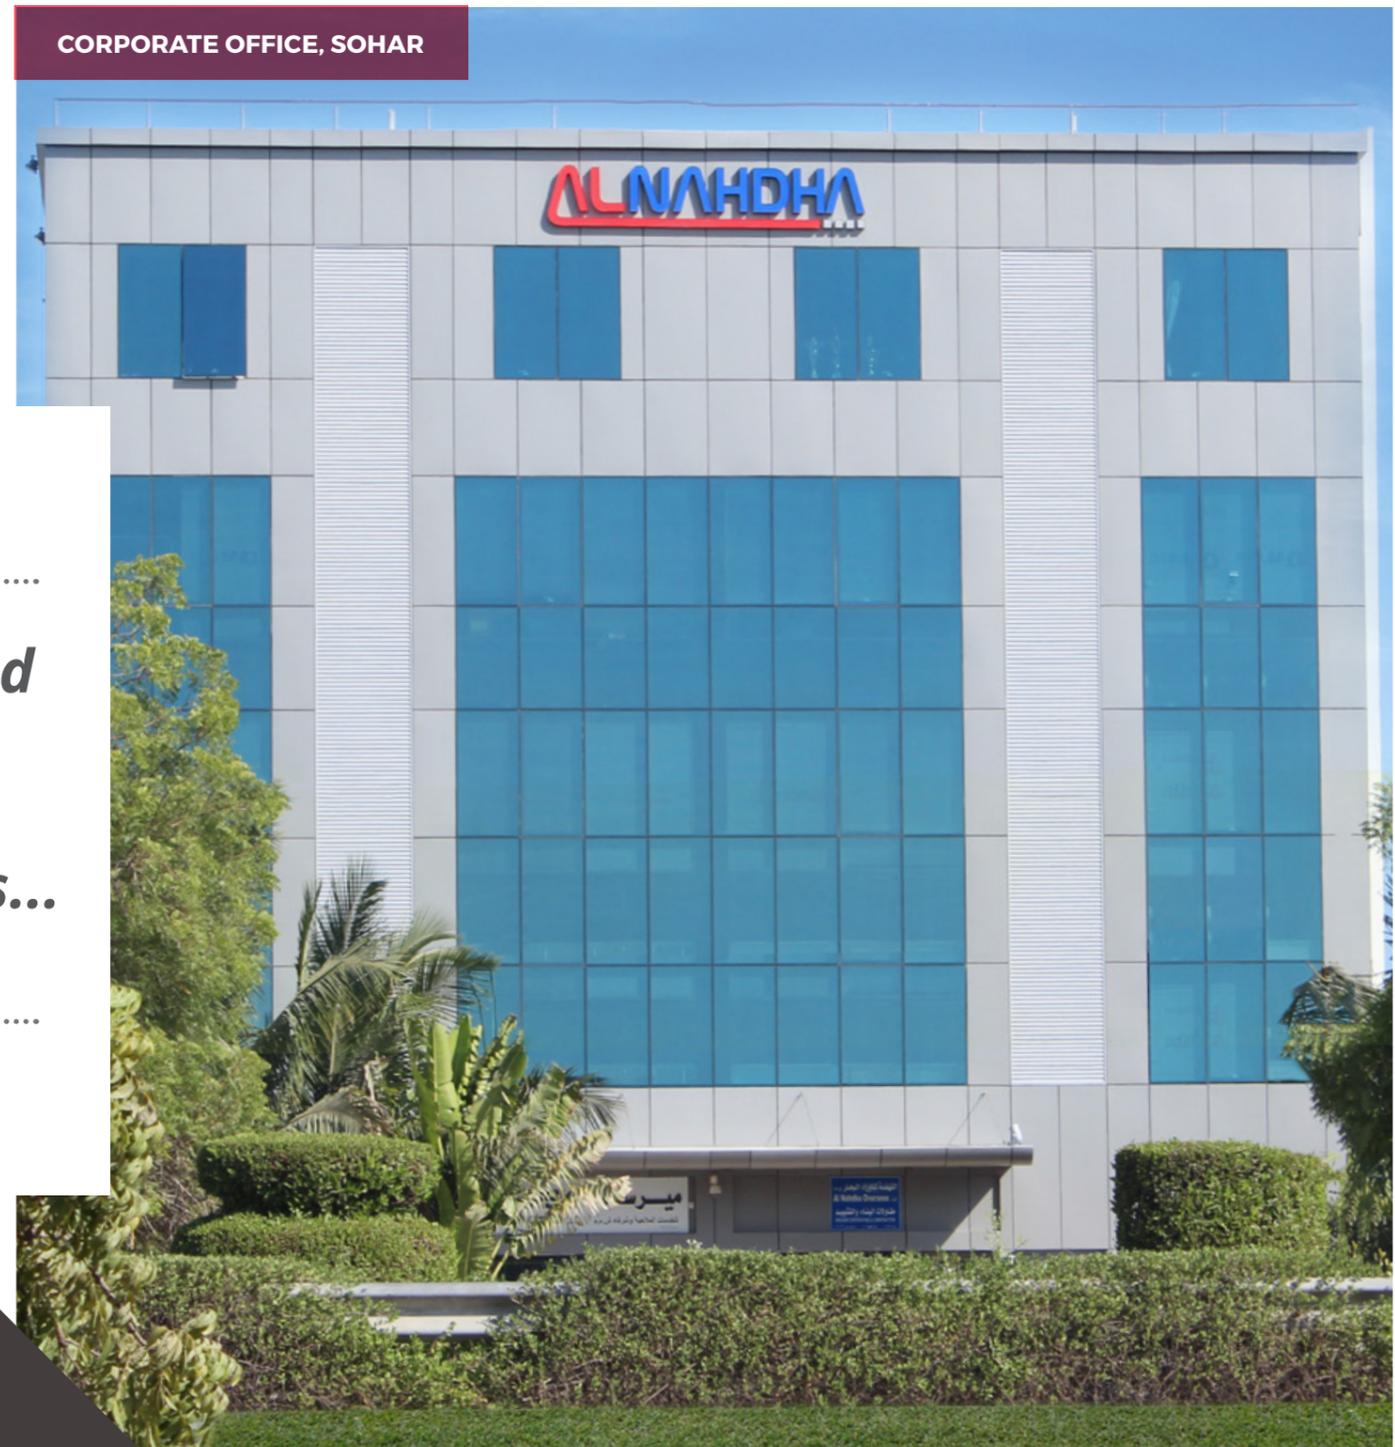

**ANG** is equipped with a wide range of modern infrastructural facilities including, but not limited to, office spaces, warehouses, workshops and fabrication units.

**ANG** also owns a complete range of mobile machinery and equipment like Cranes, Forklifts, Generators, Compressors, Manlifts, Telehandler Boom Trucks, Bobcats, etc. as well as Transportation Buses. These give us flexibility and enable us to offer services at attractive and competitive rates.

## THE MAIN ACTIVITIES OF ANG ALONG WITH ITS PRINCIPALS INCLUDE:

- *Painting, Scaffolding & Insulation*
- *Refractory & Fireproofing*
- *Mechanical, Fabrication, Machining & Erection*
- *Project & Maintenance Support Services*
- *Trading*

CORPORATE OFFICE, SOHAR

..... “ .....  
*committed  
to serve  
beyond  
your needs...*  
..... ” .....

# More About Us

**ANG** has the capability and experience to take up any job at any phase of the project providing quality and timely services within budgetary parameters to the satisfaction of its local and international clients.

The Group also specializes in Industrial Marketing and keeps track of all upcoming potential projects in Oman with particular emphasis on Oil & Gas, Power Generation, Telecommunication and IT Sectors. It is well-versed in all procedures right from registration to tendering and execution of all stages of projects related to the above sectors and has an efficient team to coordinate between various ministries and Labor Department to clear all statutory and bureaucratic hurdles to ensure smooth completion of projects undertaken.

**ANG** strongly adheres to its Motto "*Committed to serve beyond your needs*" which, in itself, is a testimony to its performance and growth.

The Group is proud and honored to offer itself as a One-Stop Solution for all its clients' business needs.

**Factors that have contributed to its Success:**

- a) Strict compliance with the terms of contracts, standards and procedures.
- b) Timely completion of all deliverables & effective liaison with clients.
- c) Organizational support, availability of resources and facilities.

It is a matter of pride that **ANG** has today become a trusted name in the petrochemical industry. The group's continued success is the result of its commitment and readiness to meet the challenges of the industry through the expertise and experience of its workforce and support of its clients. **ANG** is a synonym for delivering its projects in time and within budgeted costs.

## **FOR YESTERDAY, TODAY, TOMORROW AND BEYOND...**

From a small beginning in 2003, we have matured and witnessed our growth bit by bit in the sectors of oil & gas, petrochemicals, infrastructure industries and construction by providing valuable support services to our clients, the main EPC contractors. However, we also know that one cannot manage today's business through yesterday's eyes. In this day and age, technology, especially, has ensured that few things remain the same for very long, whether that be environment, markets or even customer requirements. How one found and satisfied customers yesterday, does not predict how one can do it, as effectively, tomorrow.

At **ANG**, we do not get comfortable or complacent with maintaining status quo. Nor do we get stuck in the past, reminiscing and re-living "the good old days." While we do not believe in change for change's sake, we believe that for companies to grow one has to change. Many small businesses rest on the laurels and successes of the past and not being cognizant enough of the changes that are going on around them, both externally and internally – we do not. Recognizing the intricacies of business and the requirement of certification was the first step that we took and today, we are certified with all the possible certification standards of **ISO 9001, 45001 and 14001** that stand us in good stead in getting the confidence of our clients.

We have also learned to develop and maintain a presence in each phase of a project with a strong interpersonal relation between team members that has turned out to be the key feature of our activities as providers of diversified professional services.

The future is based on what we learned from yesterday without reliving it. Not everything that we did to get our company launched was right. However, knowing how we achieved our early success and continually building on it re-affirms the culture that created the company we have today. We have made sure that we still operate around the basic values upon which we were founded. We never stop asking hard questions – "why" is the single most important question that we ask. "Why are we still doing what we do?", "Why are we losing valuable employees?", "Why are our customers demanding lower pricing?", "Why is our main product no longer a market leader?" Answering why questions, usually, gives us an insight to the root cause of problems, and that gets us on the way to solving them.

### **EMBRACING NEW PEOPLE, NEW IDEAS**

At **ANG**, we never stop looking for better people or better ways to do things. We are open to "thinking outside the box," especially when it entails "sacred cows" within our organization, be they people or practices. This doesn't mean that we axe any business function or people, but are open to modifying either or both. We never stop encouraging new ideas from our employees as they can be an untapped source of new business growth or more efficient operations. Our mission is to invent new ideas to reduce the unit cost of manpower NOT the manpower itself.

### **CONTINUING TO UPGRADE SYSTEMS/PROCESS**

Technology can be a key factor in both driving change and making operations more effective. We have an ongoing plan to constantly review and upgrade systems and technology. It can also help make our operations more cost-effective as the price of technology continues to come down.

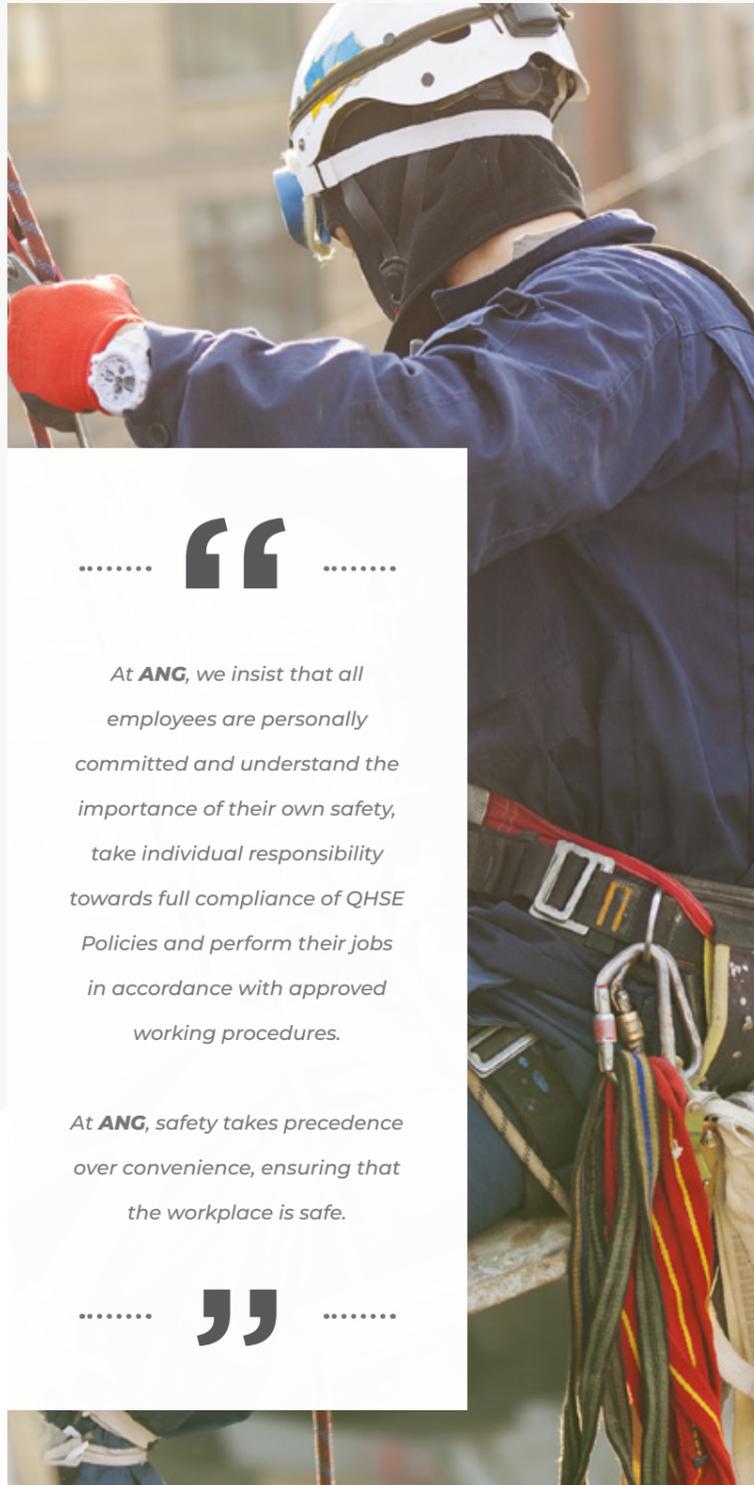

## **Our Vision**

*To be the partner of choice for clients who, like us, are also driven by a spirit of excellence and a passion to establish prosperous businesses.*

## **Our Mission**

*Our mission is to be a leading provider of services and facilities driven by our commitment towards our clients and to constantly improve our services for their benefits, and those of our staff & workers. We wish to emerge as a knowledge-rich and most respected organization.*

# QHSE Commitment

..... “ .....

*At **ANG**, we insist that all employees are personally committed and understand the importance of their own safety, take individual responsibility towards full compliance of QHSE Policies and perform their jobs in accordance with approved working procedures.*

*At **ANG**, safety takes precedence over convenience, ensuring that the workplace is safe.*

..... ” .....

The Health and Safety of our workforce along with care for the Environment & Quality are of prime importance to all Al Nahdha Group Organizations (**ANG**). We are committed to providing a safe and healthy work environment for the protection of employees and property from incidental losses.

**ANG** aims to achieve the highest standards of Quality, Health, Safety and Environment, incorporating the principles of sustainable development throughout its worldwide business.

**ANG** monitors the health and safety of its employees, contractors and visitors, the satisfaction of its customers, the protection of the environment and the development of the communities where it has its operations as integrated key drivers of its business; the entire organization is oriented towards achieving these goals openly and transparently.

In order to fulfill this commitment, we endeavor our legal responsibilities towards our Employees, Contractors, and Society in general with aim to comply with the relevant rules & regulations of the Sultanate of Oman, respective National Regulations and Internal Standards.

**IT IS THE COMPANY'S POLICY TO:**

- Ensure the safety, health and welfare of all employees at work

and to keep them well updated from time to time with information, training and supervision needed for this purpose.

- Notify the QHSE Policy to all staff and encourage them to comply with the requirements of Integrated Management Systems (IMS) consisting of Quality, Health, Safety and Environment.

**ANG** communicates this policy throughout its organization, trains its employees in the appropriate use of its Quality, Health, Safety and Environmental management systems. The Group engages them in the regular setting, measuring and revision of objectives, as each employee has the responsibility to cooperate & coordinate with each other to achieve a healthy and safe work place for themselves and others along with taking care of the environment while delivering the quality service.

The goal of our Quality, Health, Safety, and Environment (QHSE) policy is to actively contribute to the performance and sustainability of **ANG**, based on principles of ongoing improvement and sustainable development.

We undertake to dedicate the resources necessary to make this system effective, namely:

- by engaging and empowering staff throughout the organization
- by measuring the confidence of our customers and the compliance of our suppliers
- by following legislation, regulations, standards and other requirements
- by analyzing and preventing risks
- by implementing a strategy of ongoing improvement of performance and cost reduction

Each year, we review the goals of our Corporate Strategic Plan, and we focus our efforts in particular on the following points:

**QUALITY**

- Being the supplier of choice for innovative materials / services
- Increasing our responsiveness to the requests of our clients
- Improving the quality of our products and services
- Developing our employees' skills

**HEALTH & SAFETY**

- Aiming for “Zero Accidents”
- Preventing occupational illnesses
- Reducing risks at work stations
- Preventing major crises

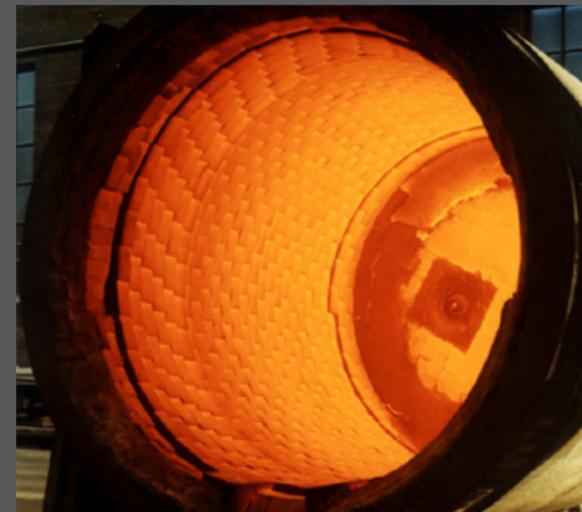

**ENVIRONMENT**

- Preventing environmental impacts
- Reducing waste and improving its recycling
- Optimizing use of natural resources
- Guaranteeing management of all hazardous substances

# What We Do

## **THE MAIN ACTIVITIES OF ANG ALONG WITH ITS PRINCIPALS INCLUDE:**

- *Painting, Scaffolding & Insulation*
- *Refractory & Fireproofing*
- *Mechanical, Fabrication, Machining & Erection*
- *Project & Maintenance Support Services*
- *Trading*

# Painting

At **ANG**, we excel in completion of time sensitive projects. We complete projects by accommodating scheduling requirements while working within deadlines, along with guaranteed output. Plant shutdowns demand a large amount of work to be completed in short period of time. This is where we shine. **ANG's** Painting Department can mobilize large painting crew to tackle time sensitive projects while maintaining a safe work environment and to meet even the most stringent safety requirements.

Our employees are trained in QHSE standards and have expertise in applying specialized coating and linings for corrosion protection of refineries, petrochemical plants, power plants, desalination plants, manufacturing facilities, waste water treatment facilities, fertilizer and cement industries. Our Painting facility is approved by one of our valued customers (ORPIC).

We provide Corrosion Protection services for projects both at our own shop facilities and at our clients' facilities.

## WE PROVIDE SERVICES FOR:

- Interior/ Exterior tank painting
- Underground and above ground piping
- Steel structures and piping support
- Concrete surfaces (Floor Coating etc)

## THE RANGE OF COATINGS USED ARE:

- Epoxy - Interior / Exterior Coatings
- Standard Epoxy Floor Coverings
- Polyurethane Lining / Coatings
- High / Low Temperature Coatings
- Primary and secondary containment coatings

# Scaffolding

SUSPENDED SCAFFOLDING AT MC-5 SALALAH AIRPORT

SCAFFOLDING WORK AT SOHAR REFINERY INDUSTRIAL PLANT

## LEADERS IN QUALITY SCAFFOLDING & INSTALLATION FOR OVER 10 YEARS

From modest beginnings in 2007, customer service has remained our priority. Today, **ANG's** scaffolding division is a one-stop solution provider for all kinds of scaffolding works and serves the need of large contractors undertaking construction work, operation & maintenance work or shutdowns in a wide range of industries.

SCAFFOLDING WORK AT YIBAL KHUFF PROJECT

**ANG's** Scaffolding Division is the safest and most professional commercial scaffolding entities available to the heavy industrial sector like oil & gas, petrochemical, power plants, water desalination plants, etc. We provide competitive, safe and professional scaffold erection in the region and have operations running in Oman, UAE, Qatar and Kuwait.

We supply all types of scaffolding solutions like Supported Scaffolding, Suspended Scaffolding, Mobile Tower Scaffolding, Cantilever Scaffolding and Birdcage Scaffolding.

We maintain a sizeable inventory of scaffolding material like cup-lock, tube fitting scaffolding material with LVL boards, metal planks and normal wooden boards to carry out a wide range of scaffolding works of conventional tube and fitting systems.

We offer a wide range of access solutions from the use of conventional tube and fitting systems scaffolding, through to an innovative industry solution – the Cuplock system. This system can significantly reduce the construction time of the scaffolding thereby transferring the resource benefits directly to the client.

We pride ourselves on our staff training and dedication to health and safety. Managing risk is central to our business and, as such, we invest heavily in our operatives who are competent and experienced and trained to HSE/Industry Standards (qualified & certified by NTI/TUV/CISRS) and provided with the equipment necessary to

carry out your project safely and efficiently.

We have clear management arrangements in place for implementing our declared health and safety policy.

As one of the leading scaffolding service providers to the oil & gas sector, we are able to offer highly competitive service levels at competitive prices.

## WHICH SERVICE DO YOU NEED?

### CONTRACTUAL

We provide our services on a contractual basis right from erection of the scaffold to its dismantling upon completion of job. We provide these services along with manpower and material in either an open / internal area or in confined spaces (within plants, refineries, etc.) and assume all responsibility for safety. Our equipment is thoroughly inspected to ensure top quality and structural integrity. We offer competitive pricing and high-quality equipment to serve our customers to the best of our capabilities.

### DAY WORK & RENTAL

Here we provide our customers with our skilled manpower on an hourly rate basis. This is particularly convenient to those who have their own scaffolding components but need manpower support to erect the scaffold.

### ITEM-WISE MATERIAL CONTRACT

For those customers who have their own manpower but need to hire out certain missing scaffolding parts, we provide the same on rentals.

# Insulation

## THERMAL & ACOUSTIC INSULATION

To achieve quality success while offering turnkey solutions, **ANG** provides the following services:

- All types of Cold & Cryogenic Insulation
- Thermal Insulation
- Acoustic Insulation
- Ducting Works

1. We source and deliver the best insulation materials from reputed manufacturers across the globe.
2. Our Qualified and Skilled Project Management Personnel have extensive experience in related projects enabling us to provide attractive and cost-effective solutions for the market.
3. Our highly trained technicians & crew are capable of delivering professional services fulfilling client requirements in respect of schedule and quality.
4. As a result, we successfully deliver and install, where required, the needed materials within agreed timeframes at competitive rates.

## WE EXECUTE THE ABOVE-MENTIONED SERVICES IN THE FIELDS OF:

- Project Contracts
- Rate Contracts
- Plant Shutdown Maintenance
- Manpower Supply Contracts and
- Material Take Off & Supply

INSULATION WORK AT OMAN CEMENT PLANT

INSULATION WORK AT SUR IPP

INSULATION WORK AT RAYSUT CEMENT PLANT

INSULATION WORK AT SOHAR REFINERY INDUSTRIAL PLANT

# Refractory

**ANG** is the contractor-of-choice for companies across all process industries. We are one of the leading companies in Oman and the Middle East supplying refractory lining installations. Our customers return to us because of our experience and expertise to handle their projects from start to finish. Whether your requirements are new construction, routine maintenance, capacity enhancement or turnaround shutdown; our experience, unsurpassed quality and safety will help you reach the performance you desire. We cater to various requirements in chemical, petrochemical, metallurgical and non-metallurgical industries as well as cement plants, glass industries and power plants.

## OUR EXPERTISE LIES IN:

**ESTIMATING** – We offer an accurate estimate of the job at a competitive price using quality material and superior workmanship.

**INSTALLATION** – Years of industry and project management know-how along with our skilled Technicians, Engineers, and Supervisors are assets we possess to help eliminate costly mistakes. Your job is finished safely on time and within budget.

**SCHEDULED MAINTENANCE** - Optimize your operating efficiency by establishing a maintenance schedule. **ANG** can help in carrying out maintenance of your refractory with minimum downtime.

**INSPECTION SERVICE** – You can schedule an inspection by us to minimize downtime and optimize operating efficiency.

REFRACTORY WORK AT OMAN CEMENT COMPANY

**EMERGENCY REPAIRS** – You can rely on us 24 hours a day, 365 days a year for prompt & reliable emergency repairs.

We carry out installation of Refractory Material through various application modes namely Gunning, Pouring, Casting, Brick Lining, Ramming, etc.. We also carry out ceramic Fiber Installation for Furnaces, Reformers, Heaters, Reactors, Regenerators, Boilers, Kilns & other related units/ equipment and supply all types of refractory materials to various industries. We have tie-ups with leading international brands of Refractory Manufacturers and specialize in Brick Installation, application of monolithic materials, installation of Ceramic Fiber products like Modules, Blankets, etc.

DENSE BRICK LINING IN INCINERATOR AT YIBAL KHUFF

HEAT PROTECTION SHIELD WORK AT JSIS, SOHAR

Our dedicated Refractory Team comprises of highly experienced Engineers, Supervisors, and Technicians.

The primary refractory activities being taken up by **ANG** are:

- Refractory Lining and Supplies for New & Existing Projects
- Furnace Maintenance
- Reformer Refractory - Installation & Maintenance
- Maintenance of ABF
- Launder Repairs
- Electric Arc Furnace & Reheating Furnace Maintenance
- Steel Ladles - Lining
- Rotary Kilns Lining & Repair

**ANG** is a certified installer for products of the world's leading Refractory Manufacturers - **Morgan Ceramics® & Gouda Refractories®**. We are also proud to be associated with **Morgan Ceramics®** in representing them and distributing their range of products in the Sultanate of Oman. Products include Ceramic Fiber, Castables, Foundry Supplies, Crucibles & Foundry Products, Ceramic Kiln Lining & Furniture Supplies.

We offer services to Major Construction Projects, Factories and Plant Maintenance through Project Contracts, Annual Rate Contracts & Shutdowns.

# Fireproofing

**ANG** has been a leading provider of Fireproofing services for over the last 10 years and has met the needs of the Petrochemical Industry. Our skilled teams are experts in a variety of Fireproofing applications and installation methods. Many of our Technicians are multi-taskers and trained to perform scaffolding, insulation and refractory work. When you work with **ANG**, you realize cost savings by leveraging your Insulation, Refractory, Fireproofing and Scaffolding needs under the same management team.

With our extensive quality assurance program and our skilled certified technicians, you can count on us to complete your project safely, to specifications, on time and within budget, no matter how big or small.

We perform lightweight cementitious fireproofing for steel structures and equipment skirts to achieve the desired rating.

We are authorized applicators for the following Fireproofing Systems:

- ISOLATEK
- PROMAT

## OUR SERVICES INCLUDE:

- Supply & Application of Fireproofing Material
- Lightweight Cementitious Passive Fire Protection (PFP)
- Pneumatic, Spray & Trowelled Applications

With remarkable credentials in Oman, our clientele includes **Oman Oil Refineries & Petrochemical Industries (ORPIC), Petroleum, Development Oman (PDO), Salalah Methanol Company (SMC), Oman Methanol Company (OMC), Sohar Aluminium, Oman Cement Company (OCC)** and many more.

FIREPROOFING WORK PREPARATION, AT RABAB HARWEEL INTEGRATED PROJECT

FIREPROOFING WORK AT SOHAR REFINERY INDUSTRIAL PLANT

# Mechanical, Fabrication, Machining & Erection

**ANG** has specialization & capabilities for Fabrication of Piping Spools, Skids, Manifold, Pressure Vessels, Equipment, Structure, Platforms, Railings of various materials such as Carbon Steel, Stainless Steel, Alloy Steel at their work shop at Sohar and work sites for Oil Refineries, Petrochemical Plants, Power Plants, Steel Plants, Aluminum Plants, Cement Plants and Water Desalination Plants.

**ANG** has over **120,000sqm** of open & covered fully-fledged facilities strategically located in **Sohar Industrial Estate, Falaj Al Ouhi Industrial Area, Rusayl Industrial Estate, and Duqm Industrial Zone**, fully equipped with a wide range of machinery to take up manufacture of Process Vessels, Storage Tanks, Structural and various other items of unending list.

PIPING WORK AT ANG WORKSHOP

MACHINING WORK AT ANG WORKSHOP

It is a one-stop-shop for the fabrication requirement of industries right from raw material to painting, satisfying our clients.

**ANG** undertakes fabrication of Process Piping and High-pressure Piping including generating shop floor drawings from the client provided engineering drawings for all kinds of materials viz. Carbon Steel, Stainless Steel and other metals with radiography quality conforming to standard NDT norms.

**ANG** carries out erection of heavy structures to the stringent quality requirement of customers and Shutdown & Maintenance services for Refinery, Shipping and Steel Industries. Our prestigious clients include ORPIC, MAF, Shell, Oil Tanking, Sohar Aluminium and many more.

## **MECHANICAL WORKSHOP, MACHINING AND FABRICATION SERVICES**

The **ANG** machine shop is a highly capable and diversely-equipped unit operated by experienced machinists, fitters and turners, with years of machining experience.

The machines are diverse and generally suited for repair work and batch manufacturing for industrial applications.

## **FABRICATION AND STEEL ERECTION TEAMS**

Our Fabrication Teams have a very diverse and long-term experience in fabricating many

structures and pressure equipment, both workshop-based and on-site operation for many local and international companies.

Our welders are qualified to 3-G and 6-G codes, using all forms of welding methods. The certification is kept up to date and is verified and preserved by the QA/QC department.

Welding machines for MIG, TIG, SMAW, FCAW are available and are kept fully calibrated to industry standards.

Material can be Carbon Steel, Alloy Steel, Stainless Steel, Duplex, Super Duplex, etc. Material storage and WPS are all handled by the management, QA/QC and safety teams.

Millwrights, Steel Erectors, are also available for any structural or unit erection work, manufactured by **ANG** or any bought in equipment.

Full site supervision, QA/QC and Safety personnel would also be available so as to comply with all site and workshop QHSE, and customers' own or enhanced standards required for each specific project.

Maintenance Shutdowns, Heat Exchanger Tube Replacement, Boiler Maintenance, for Refineries, Chemical Plant, Tank Farms, Steel Mills, Aluminum Mills, and Fertilizer Plants, are all undertaken on contract or call out basis.

# Project & Maintenance Support Services

We as Project & Maintenance Support Services undertake the following services for routine maintenance work for Static & Rotating Activities along with Pre-commissioning & Commissioning jobs, Shutdowns / Turnarounds and Construction Activities in Oil & Gas, Petrochemicals, Water Desalination Plant, Steel Industry, Cement Industry, Power plant with our highly qualified and experienced skilled / semiskilled personnel which include as per the following designations:

- Project Managers & Engineers, Surveyors, HSE Practitioners, Specialists, Advisors & Consultants in specific fields.

ANG's WORKFORCE AT OUR INDUSTRIAL WORKSHOP

ANG's WORKFORCE AT OUR CORPORATE BUILDING

**SUPPORTED BY THE FOLLOWING  
HIGHLY SKILLED MAN POWERS  
SUCH AS:**

- Static & Rotating technicians
- Instrumentation & Electrical technicians along with skilled man power like machinist, fitters, turners, fabricators, welders, Riggers etc

TRUCKS, TRAILERS AND BUSES

SOME OF OUR CRANES

We also complement our activities with our own fleet of machineries, equipment & vehicles comprising of but not limited to:

- Cranes, Forklifts, Steer Loader (Bobcat)
- Telehandler (JCB) & Backhoe Loader (JCB)
- Manlifts, Cherry Pickers & Scissor Lifts
- Boom Trucks, Buses, Vacuum Tankers
- Tippers, Flatbed Trailers, Front & Back Loading Lowbed Trailers
- Compressors, Generators, Tower Lights & Diesel Welding Machines

# Trading

We, with extensive experience gained over many years have now entered into a diverse array of activities in addition to our service related verticals. We have an exclusive sourcing outlet for Quality Industrial Products, Machines, Spare Parts, Building Material & Equipment, Oil and Gas Material & Equipment, Polymer Raw Materials including (Granules, Grinded, Powder & Lumps), Chemicals & Mechanical Material & Equipment at competitive prices, backed up by exceptional customer service.

Our success is inextricably linked to our professional and technical capabilities and to our team of highly committed, skilled and trained staff.

In addition, we have strong support of our suppliers and manufacturers from Italy, India, US, and across the Middle East who give us access to the wealth of knowledge and products.

We guarantee quality products and provide the best support available in the market.

We strive to provide the latest technology at affordable prices to all our clients. Our core competency is our customer relationship. We have built a trust with our everyday clients, who have provided us with regular business over the years.

**ANG** is a one-stop solutions provider for services and quality products.

We strongly believe in great customer service and work towards the same. In doing so, we offer extended warranties and special offers that are provided by our suppliers and product manufacturers.

WE SUPPLY VARIOUS KIND OF INDUSTRIAL MATERIALS

WE SUPPLY VARIOUS KIND OF POLYMER RAW MATERIALS

WE SUPPLY VARIOUS KIND OF INDUSTRIAL ITEMS

WE SUPPLY VARIOUS KIND OF INDUSTRIAL MATERIALS

The Group also specializes in Industrial Marketing and keeps track of all upcoming potential projects in Oman with particular emphasis on Oil & Gas, Power Generation, Telecommunication and IT Sectors.
